During this watercolor workshop we will paint a variety of subjects including landscapes, cityscapes and marine scenes using plenty of water and pigment to exploit the wonder and intrinsic beauty of watercolor.

Areas of discussion will include:

- Simplifying the scene
- Working from reference material
- Use of artistic license
- Developing strong compositions
- Atmospheric perspective
- Visual language
- And the sheer joy of painting

Discussions and demonstrations will emphasize the importance of developing dynamic shapes, value contrast, and edge quality to produce sound compositions. Participants can work on the same subject matter as the instructor or you can choose to work from your own reference material with individual guidance as necessary all in a relaxed and fun-filled setting.
