~ABSTRACT EXPRESSIONS~  
St Michaels, Maryland

*"Whirlwind"*

36 x 36

An artist since childhood, Janet DiNapoli studied life drawing, traditional stone and wood carving, and oil painting while living and managing a career as a health care professional in New York City. Her painting style evolved after experimenting with collage, first with different types of paper, and then fabrics, in combination with oils or acrylics. Her goal is to create harmonious, flowing abstracts, with textures and shapes that remind us of the complexities of nature. She retired to a rich art environment on the Eastern Shore where the beautiful open water, fields and skies offer endless inspiration.

Janet DiNapoli is a juried member of the Working Artists Forum.
